## WINNING PAIR OF BLACK AND WHITE

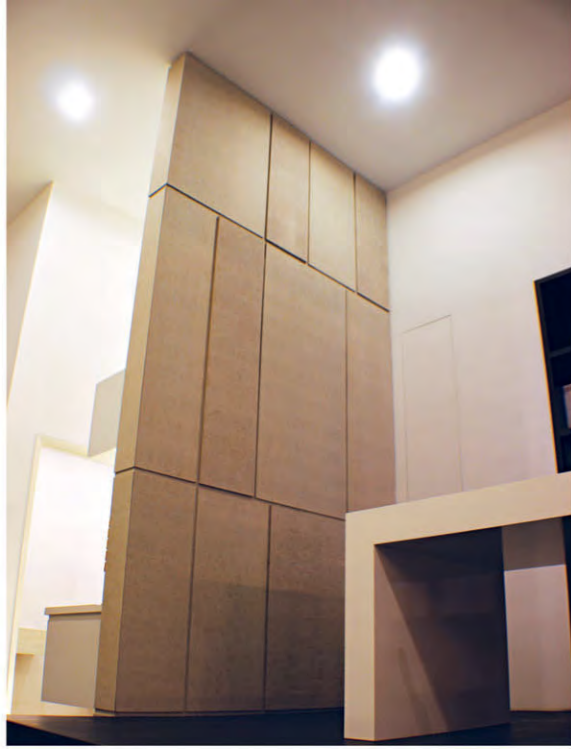

The room opens widely into a natural and spacious interior - this case study is the classic black and white combination, a simple yet timeless design style.

A polished concrete floor gleams at the black and white surrounding setup, with no boundaries to create divisions, no extra space for decorations, the room is a simple structure of black and white, quite clear to the glance as soon as anyone walks through the door. Walking past a white long table with its back to a black multi-drawer cabinet, past a black sliding grill door, one encounters a similar black and white setup, difference being the back portion is elevated by steps of stairs, an interaction of the same color schemes, yet of entirely different levels.

The down-to-earth black and white combination exudes an irresistibly fashionable charm, and till today is still highly regarded in the designing world as a potent pairing, effective and unbeatable.

## 黑白制胜

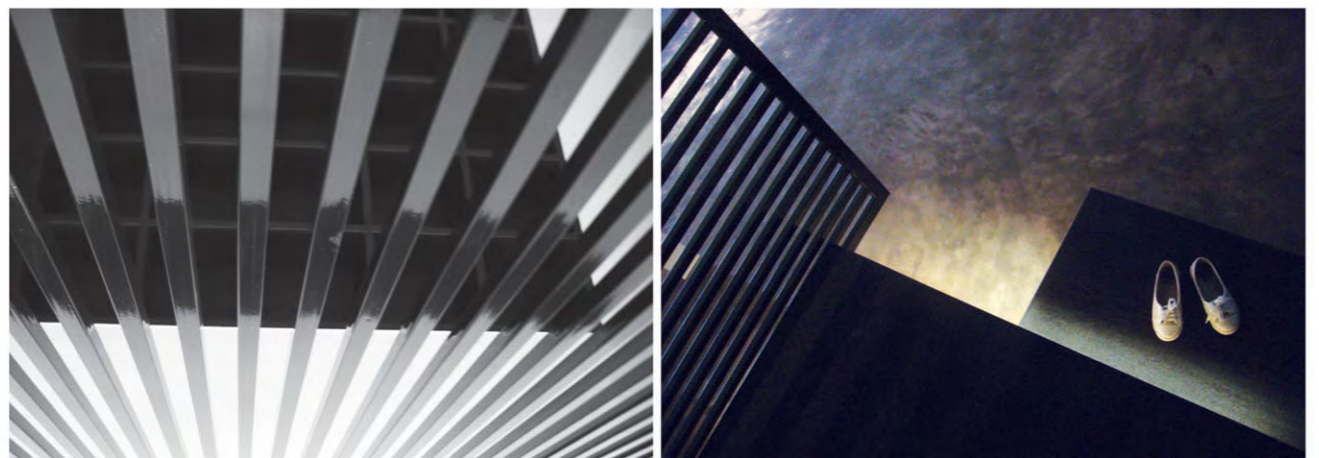

敞开一片自然宽敞，此案是典型的黑白简明设计。

一室被刷以亮面处理的钢筋水泥地面，盛载着一室的黑白格局，没有隔墙的空间划分，没有多余的空间装饰，室内极简的黑白构造，入门即一目了然。一张白色的长方桌，背衬一个黑色的多方格橱具，随后越过一面纹理镂空的移动把门，再现同样的黑白布局，只是后方由梯级托高，呈一幕同色系且不同阶级的空间对话。

黑与白，有着沉稳的时尚魅力，至今仍是设计宝典内的不败神话。
